

Falls Creek Comprehensive Development Plan VIC

As part of the broader state planning reform the Alpine Resorts Commission sought to prepare individual planning schemes for Falls Creek, Mt Hotham and Mr Buller.

Tract Consultants was engaged to prepare a comprehensive development plan for the Falls Creek Resort to form the basis of its planning scheme. This work included preparation of a planning strategy which was referred to as a comprehensive development plan which could then be incorporated into the planning scheme as the key tool to guide development decision making in the resort.

The work involved extensive consultation including an initial information flyer, distributed throughout the resort, targeted consultations with key representatives and groups and a one day workshop with 40 invited representatives of the Falls Creek community.
